LINK & LOOP

SANCAL 

LINK & LOOP are about the connection of colour and form. Light and shadow are softly rendered across their round profile.

In the words of the designers: “LINK & LOOP are visually connected by the cylinder. The essential geometry that allows the overall volume to be soft and tactile in its appearance”.

Raw Color has a unique understanding of how to use colour in design with a vibrant, casual and very plastic design language.

Connect & create

Why can't a seat be a piece
of art when is not in use?

Link's approach is undoubtedly free, and
this triggers anarchic sitting. It can grow to
infinity by joining as many links as desired.

Details

Each of the Link pieces is available in a carefully selected range of 6 plain colours. There are also a couple of multicolour versions: Multitone bold & Multitone pastel.

Link

Designer's Edition

Multitone Bold or Multitone Pastel. Two curated versions which play with colour and symmetry.

Loop

Designer's Edition

Loop “Designer’s Edition” is available in 4 versions of the Planum textile, also designed by this studio for the Danish textile company Kvadrat.

Loop

Monocolor

The standard version of Loop can be upholstered in a wide selection of fabrics.

The Loop soft seating range offers different sizes for the sofas and poufs.

Loop & Link

DESCRIPCIÓN / DESCRIPTION

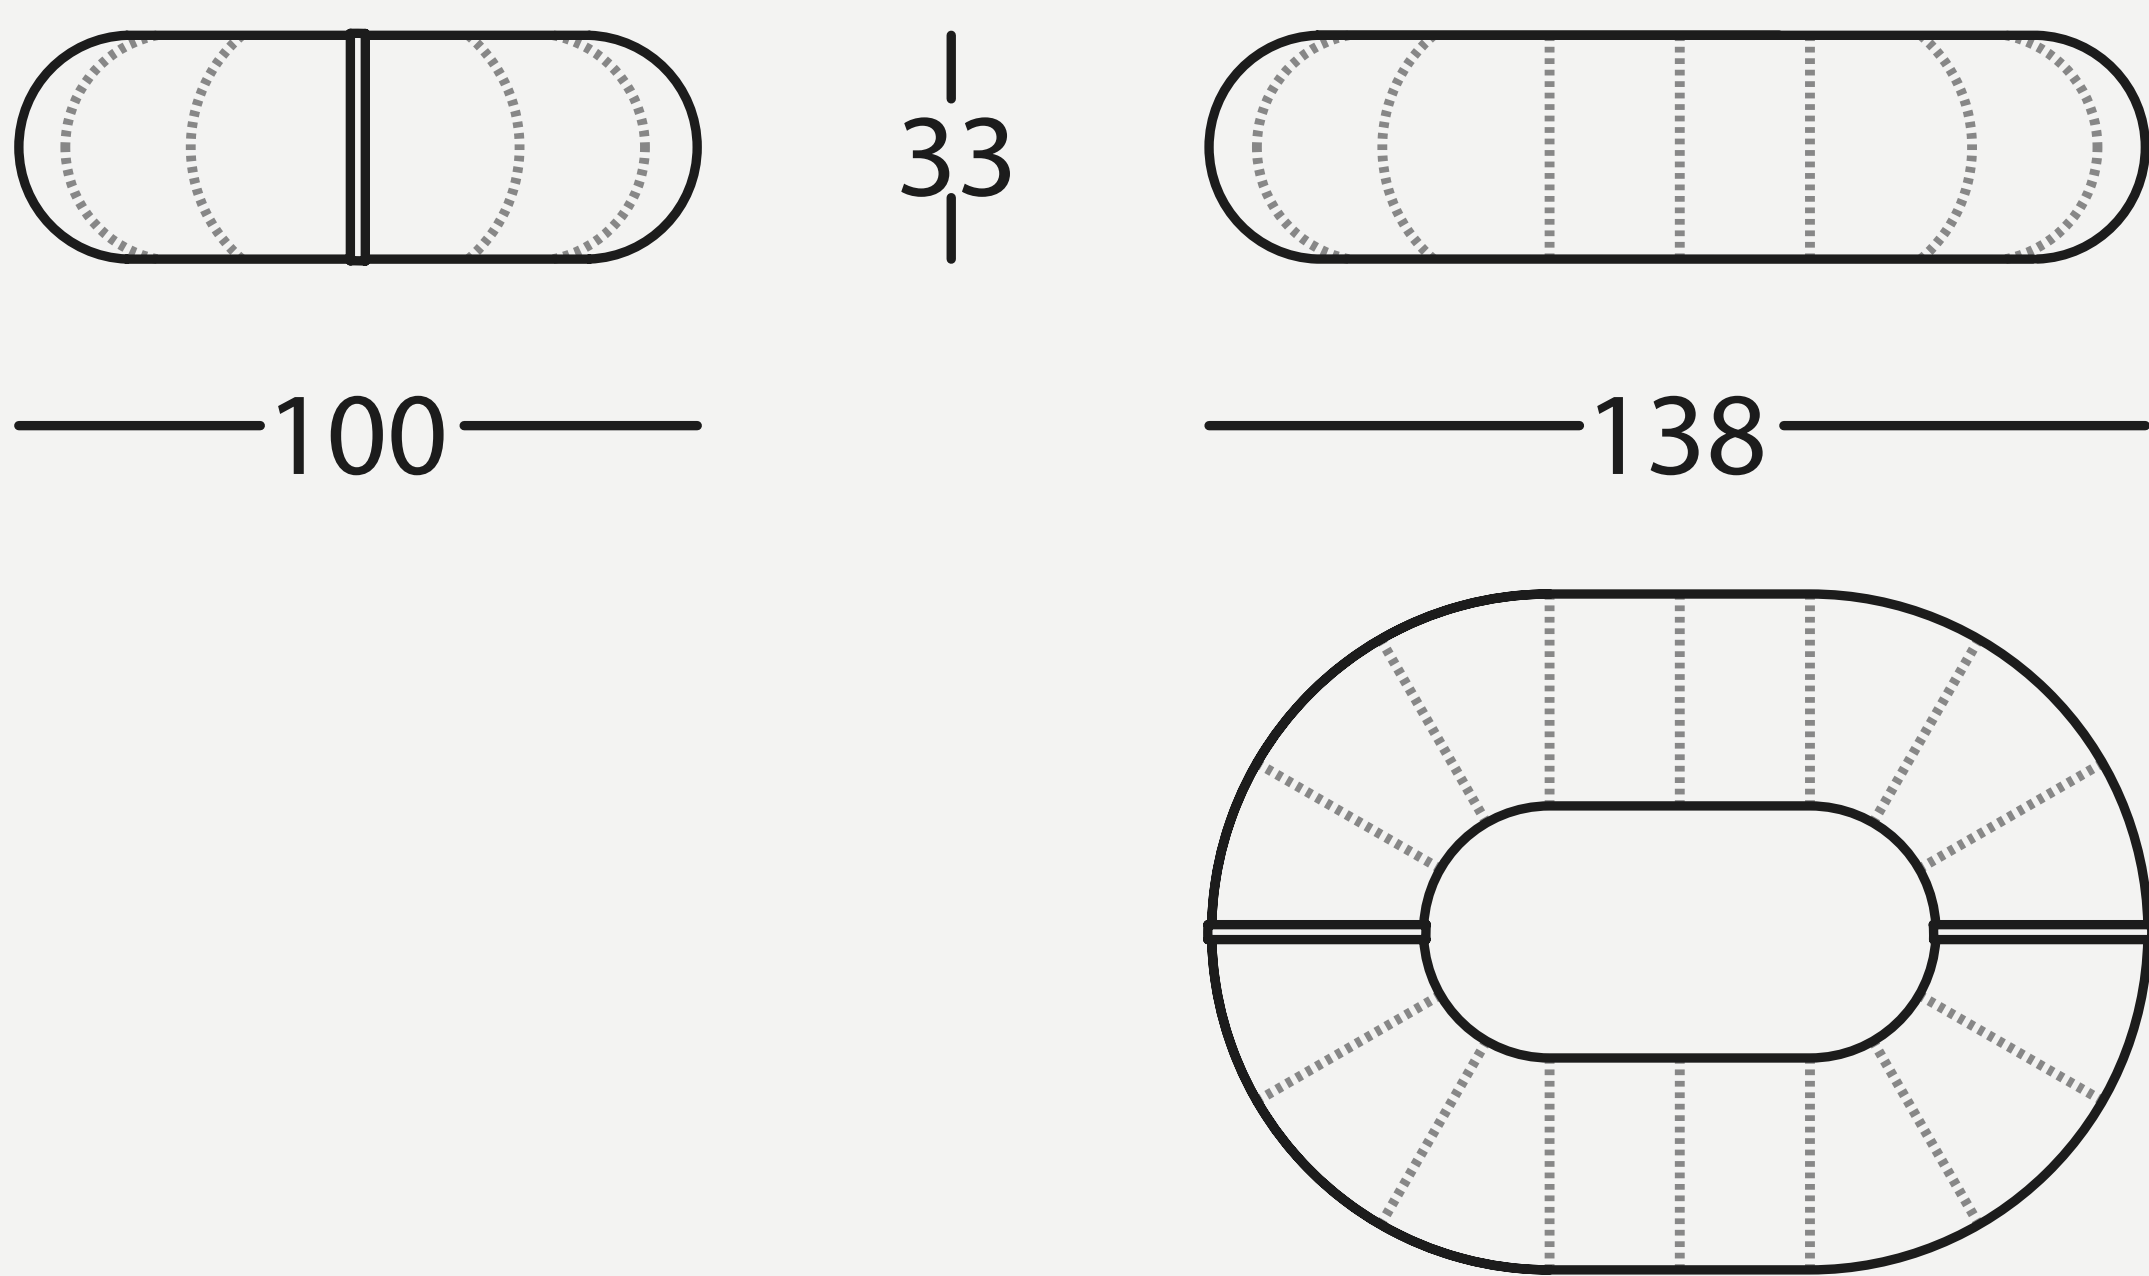

ESP

Loop & Link son parte de un mismo proyecto colaborativo entre Raw Color y Sancal, el cual surgió durante los primeros confinamientos ocasionados por la Covid-19. Con el optimismo que nos caracteriza, desarrollamos ambos productos con la ilusión de lanzarlos cuando estar “entremezclados” de nuevo fuera algo normal, de hecho, el brief tenía el nombre de “fiesta”. Ahora, que todo parece ir volviendo a la normalidad, ¡estamos encantados de celebrarlos compartiendo el resultado de esa ilusión con todos vosotros!

Ilusión no es solo un estado de ánimo, es también parte del juego visual que Raw Color busca al conectar luces, sombras, color y volumen entorno a unas geometrías suavemente redondeadas. Ilusionismo es también la magistral traslación de la expresión gráfica a la realidad de un mueble.

En palabras de los diseñadores: “Un sencillo gesto que evoluciona en una forma que une por igual segmentos curvos y rectos. Link y Loop están conectados visualmente por el cilindro. La geometría esencial de esta figura permite que el volumen sea suave y táctil, al igual que su apariencia. Todas sus formas son curvas”.

ENG

Loop & Link are part of the same collaborative project between the design studio Raw Color and Sancal, which emerged during the first days of Covid-19. With the optimism that characterises us, we developed both products even as the pandemic raged with the conviction that one day we would sit together once again. Indeed, the working title was “party” – in honour of that moment when we could celebrate the end of the pandemic. Now, as the health crisis draws to a close in Europe, we are delighted to share this stimulating project with all of you!

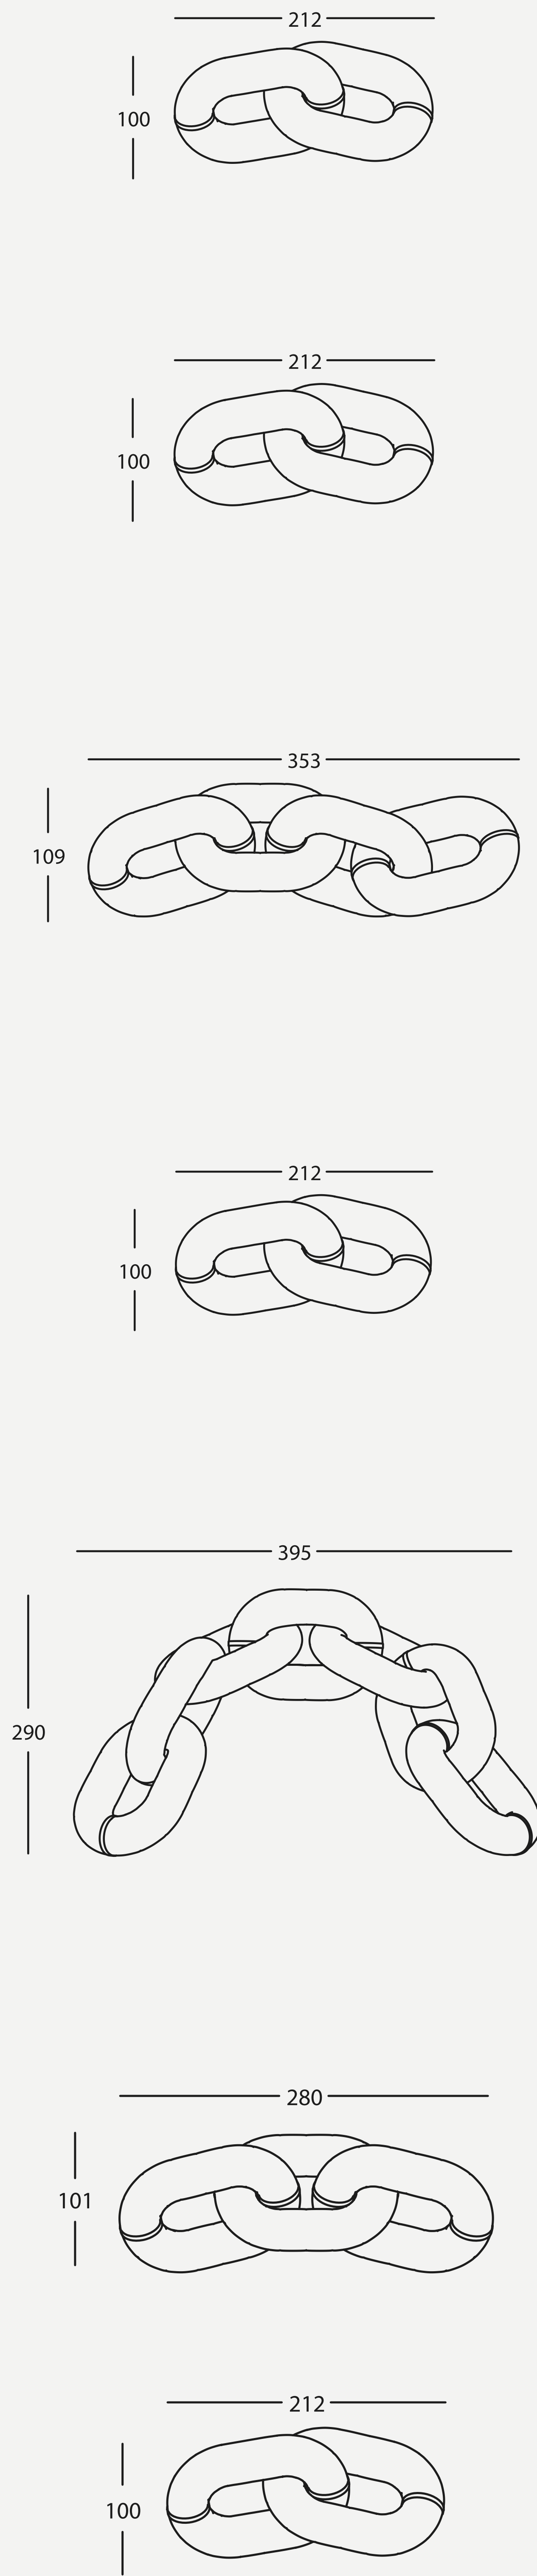

Illusion is not only a state of mind, it’s also part of a visual effect that Raw Color achieves when connecting light, shadow, colour and volume in softly rounded geometries. Illusionism is also the masterful translation of graphic expression into the reality of a piece of furniture.

In the words of the designers: “From a single gesture a shape evolves that equally unites curved and straight segments. Link and Loop are visually connected by the cylinder. The essential geometry that allows the overall volume to be soft and tactile in its appearance. Hard corners cannot be found”.
